End Modifications

Vendor Questions and District responses:

Question 1: Is there anything you can send us with some more details about where the cameras are going and what particular models (if applicable) need to be included. Also, if you could send any sort of scope details, that would be helpful as well.

District Response: As projects are identified over the next 5 years this term contract will be the method we use to purchase, install, and service the components. We are not including specific models because in 5 years the models can change and we want to be able to use this contract to purchase the most up to date versions of the technology.

Question 2: If a service call or project requires a lift to perform the work. How will one be acquired and paid for?
a. There isn't a way to account for that cost in an hourly rate.

District Response: If a lift is required for a job, it can be added as a line on the invoice at cost along with the service rate. A copy of the invoice from the lift vendor is to be submitted with the invoice.

Question 3: Will the bid require a physical copy? It appears that it does, but I wanted to confirm if a virtual signature and submittal would be accepted.

District Response: Yes, one original physical copy of the bidding documents and one USB thumb drive, loaded with all documents are required to be responsive to the requirements.
