

BMS Learning-from-Home Procedures

Beginning October 11, 2021

While your child is learning from home, we are committed to providing continued access to and support for a quality learning experience.

- **The grade-level Week at a Glance in Schoology will provide your student with an overview of the content that will be covered for the week.** Teachers will have this updated by 4pm on Fridays. Connections and World Language teachers will continue to post quarantine assignments on their Schoology pages in the Learning-from-Home folder.
- **In each Schoology course, your child will find support materials, assignments, and directions for each class for engaging in the learning experiences the teacher is providing students.**
- **If your student has questions or needs support about daily lessons, he/she should reach out to the teacher to schedule a support session via Zoom.**

It is your child's responsibility to access Schoology daily, complete the required assignments, join Zoom Office Hours as needed, and contact his/her teachers for support if he/she needs assistance.

In order to make sure your child has what he/she needs, his/her school counselor will reach out when we are informed that your child is unable to attend school due to a Covid-19 exposure or illness.

You also play a big role in supporting your child's success while in quarantine. Here are some suggestions for how you can help your child.

- Identify a dedicated space at home for your student to learn.
- Ensure he/she has 24/7 access to reliable internet to use to connect the district issued device (not a cellular connection through a mobile device.)
- Help prepare a daily and weekly schedule for learning and assignments.
- Monitor his/her daily progress and check understanding of learning outcomes.
- Communicate with teachers and other school personnel.
- Provide consistent encouragement and motivation for your student(s).
- Create positive incentives for achieving academic goals.

Parents can find Technology Parent Resources/Support on our school webpage by clicking [HERE](#). The district also provides technical support. Please [follow these directions](#) to connect with our IT department for support.

Thank you for your partnership in helping your child stay on track during these challenging times.
