LHS Family Connections

We know school is different this year and we want to support all of our Wildcat families whether your are on campus or virtual.

The following resources are intended to help you navigate your LHS academic journey, especially on virtual days.

If, for any reason, your student will be on extended virtual days, there are 2 important steps to take:

1) Contact the teachers and the student's counselor to let them know about the extended absence. You don't need to share any personal or medical details as part of this notification. This is just so we can start to help!

2) Familiarize yourself with the resources included in this guide and reach out with any questions!

We are all in this together! Go Wildcats!

Welcome to Lexington High School!

We are so excited about starting off this school year together!

This is your Week at a Glance. It is a tool teachers use to show you what is to be completed during your face-to-face and virtual learning days!

Teacher:
Mr. Pool

Subject:
Leadership

Block:
1st Block

Office Hours:
Zoom: Fridays 10:00-10:30

Friday Virtual Meeting Times

1st Block: 10:00-10:30

2nd Block: 10:30-11:00

3rd Block: 11:00-11:30

4th Block: 11:30-12:00

Need some one-on-one help or time to talk with your teacher?

Fridays are designed just for that! EVERY Friday, teachers are available to zoom in small groups to answer specific questions for students. These questions can be simple like, "Where do I find this assignment?" or, "Can you review Thursday's concept on functions with me?" Teachers supply Zoom or Google Meet links through their Schoology pages.

Email Your Teachers

Time away from school can definitely be stressful and the LHS staff is here to help you! After you review your Week at a Glance on Schoology, if you have other specific questions or concerns, please reach out to your specific teacher via email. They will respond within 24 hours. Students can begin typing staff members name into their email and it will auto-populate addresses. If you need other email addresses, visit our school website.

## What will students and parents see in PowerSchool?

Parents and students will typically see a numerical grade for each assignment. For some assignments, they may see the following symbols:

- **Collected:** means the student has submitted the assignment. This serves as a record-keeping feature.
- **Exempt:** means the student is not required to submit this assignment.
- **Incomplete:** means the student is missing part of the assignment. *(Teacher will follow up with student with support on completing the assignment.)*
- **Missing assignment:** means the student has not submitted this assignment at all.
- **Comment Box:** means the teacher put a specific note regarding this assignment. Click on the box to read the details.

Parent Resources

[Schoology](#) is a dynamic platform that allows teachers and students to work digitally and to communicate with each other on both computers and mobile devices.

With Schoology, students can submit homework assignments, participate in interactive discussions, receive announcements and feedback, take assessments and collaborate with their peers.

Teachers use Schoology to monitor student progress and activity in order to ensure a safe, secure and controlled environment.

Parents also have access to the system, and are encouraged to view teacher and student activity. Contact your student's school in order to receive your parent Schoology access code and directions explaining how to establish your parent account.

Please view the [parent activation video](#) to learn how to use your access code to establish a Schoology account. Note that this video is not viewable on a Lexington One Student Device. Additionally, you can view [directions on how to establish your account](#) and an [overview of how to navigate your account.](#) Parents may activate and view their Schoology account [here](#)

Parent Resources

You can easily access your student's grades and attendance using the [PowerSchool Parent Portal](#). Parents and students can also download a PowerSchool mobile application (available for iPhones or Android telephones).

If you have not already created a PowerSchool Lexington District One parent account, just follow these steps.

1.) Contact each child's school for PowerSchool parent Access ID and password.
2.) Once you have a parent Access ID and password for each of your children, click [here](#) and go to the "Create Account" link.

It is best to use the same email address for this account as the email address you originally provided to your child's school.

Once you create your PowerSchool account, you can elect to receive emails with information about your child's grades and/or attendance. Just set the "Email Notification" while you are in the PowerSchool Parent Portal.

Click [here](#) to go to the login page or click [here](#) for information regarding computer environments for PowerSchool.
