### FINANCE

Jennifer Miller prepared a [brief presentation](#) on the impact Act 388 has had on the district since its inception. She will review this on June 13 as well.

### HUMAN RESOURCES

School administrators conduct observations in classrooms to provide certified staff with support and feedback aligned with the South Carolina Teaching Standards (SCTS) 4.0 rubric. The 4.0 rubric is organized into four domains - Instruction, Planning, Environment, and Professionalism. Within each domain, indicators and descriptors are arranged in four performance levels - Exemplary, Proficient, Needs Improvement, and Unsatisfactory. As an observer views a teacher's lesson, he/she writes notes, collects evidence, and scores the lesson using the 4.0 rubric. At the end of the observation, the scores indicate areas of strength and opportunities for growth. The observation data and associated scores are *confidential* and are stored in a system called SC Lead.

The Peyton Lewis request was again reported on the 6/8/23 Board Brief edition.

- We were informed that a female high school teacher in the district was fired due to inappropriate contact with students. . . . If there are any documents pertaining to the firing of this teacher, we would like a copy.
- We are also informed that the FBI is involved in investigating drug dealing and drug use within the district. I would also like a copy of any notices from the FBI as well.
